

KATA
COMPETITION
Criteria for the
evaluation

IJF KATA COMMISSION
JANUARY 2015

GENERAL ELEMENTS

The evaluation of every technique of Kata has to consider the principle and the opportunity of execution: the evaluation (included the open and close ceremony) has to be comprehensive.

Definition of mistakes:

- **Forgotten technique**

An omitted technique will score zero and in addition the total final score of the Kata couple will be halved. If more than one technique are forgotten the score for that technique will also be zero but the total final score for the couple will not be halved again. Finally, if the halved total final score is not a whole number then the score will be rounded up.

- **Big mistake**

When the execution of the principle is incorrect (5 points are deducted and the maximum number of crosses is 1)

- **Medium Mistake**

When one or more elements of the principle are not applied in the correct way (3 points are deducted and the maximum number of crosses is 1).

- **Small mistake**

Imperfection in the application of the technique (1 point is deducted and the maximum number of crosses is 2).

For every technique without a big mistake, the minimum score has to be 5.

In the Nage no Kata, right and left techniques will be evaluated comprehensively (only one score).

Score of Fluidity, course and rhythm removed.

Way of correctly placing the weapons on the mat at the beginning and collect them at the end of the Kata.	Uke has the dagger (cutting edge upward) and the staff in right hand, the pistol in the jacket, weapons tops downward. Uke, steps back with right foot, steps forward toward shomen about 3m, stands with his both heels together; kneeling in Seiza he sets the staff down first and next the dagger nearest to him (blade towards him and the point to the left), then the pistol (with the muzzle to the left, the grip to him) furthest. The right side edge line of pistol should be aligns to the bottom of the dagger tip.
